OTTAWA, CANADA

BULLETIN No. 191

BRAN, SHORTS, CHOP-FEED.

OTTAWA, November 2, 1909.

W. J. GERALD, Esq.,
Deputy Minister of Inland Revenue.

SIR,—I have the honour to submit herewith the results of analysis of 545 samples of Bran, Shorts and Chop Feeds, collected throughout Canada, in April, May and June of this year.

These are classified as follows :—

Bran	148	samples.....	(See Table II)
Shorts and Middlings ..	258	"	(See Table III)
Chop-Feeds	135	"	(See Table IV)
Exceptional	4		
<hr/>			
Total	545		

This collection has special reference to the requirements of the Commercial Feeding Stuffs Act, of this year. Under the Act mentioned, which becomes operative with the beginning of the new year (January 1st, 1910), it is obligatory upon manufacturers of Feeding Stuffs, with certain exceptions, to place them on sale with a definite guarantee of their value in protein and fat, and to specify the maximum amount of crude fibre they contain.

Exceptions are made in the following cases : Hay and Straw, Roots, Grains ground or unground either from a single species or mixed species ; wet brewers grains, Bran or Middlings.

The reasons for these exceptions will appear on consideration of the facts that, in the cases of hay, straw and roots, the purchaser is competent to judge the value of what is offered to him. Wet brewers grains are assumed to be fairly definite in value, and on account of their low value, to be little liable to adulteration. Bran and Middlings (Shorts) are definable under Section 26 of the Adulteration Act. Whole grains of mixed or unmixed species, and ground or unground, may be designated as Chop-Feed or Mouleé and on this assumption, may be defined under Section 26 of the Adulteration Act.

Since Bran, Shorts, (Middlings) and Chop-Feed are Feeding Stuffs, which may be sold without registration or guarantee, it is necessary that Bran, Shorts and Chop-Feed should be defined in terms of protein, fat and fibre, in order that the purchaser may be legally protected under Section 26 of the Adulteration of Food Act.

This was the position taken by me in June, 1908, when the Feeding Stuffs Act was in contemplation, and it is clearly stated in Bulletin No. 156. I was less assured as regards Chop Feeds, than regarding Bran and Shorts ; (See Bulletin 156 p. 6), and am still in doubt as to the possibility of defining this term so as to be quite fair to the

manufacturer, and at the same time to give efficient protection to the purchaser. I am convinced that manufacturers of high grade Chop-Feeds will find it to their advantage to state, on the package, the value of their product, in protein and fat, and fibre, just as in the case of mixed feeds, where such statement is required by law.

My justification for this contention will be found in a study of Table IV. It will be seen that, for 135 samples sold as Chop-Feeds, the extreme and mean values are:—

	Maximum.	Minimum.	Mean.
Moisture	13.92	3.06	10.38
Fat	11.75	0.87	3.09
Proteids	16.19	6.63	10.70
Crude Fibre	25.80	1.21	8.69
Ash	7.64	1.04	3.24
Carbohydrates	74.59	47.89	64.45

Considering alone the three components, proteids, fat and fibre, upon which the value of the food, as defined under the Act (Sec. 2, e) is judged, we find the variations so large as to make it difficult, if not impossible, to say what should constitute a typical chop feed. The proteids may apparently vary from 16.19 per cent to 6.63 per cent the fat from 11.75 per cent to 0.87 per cent the crude fibre from 1.21 per cent to 25.80 per cent.

Great variation was found in 28 samples of Chop-Feeds, reported in Bulletin 156 (p. 7). The mean results upon both inspections, may be presented thus:—

Mean results for Chop-Feed in:—

	Protein.	Fat.	Fibre.
28 samples (Bull. 156)	11.44	2.79	7.80
135 " (Bull. 191)	10.70	3.09	8.69

I would respectfully recommend that the following limits be made legal for Chop Feeds, under the condition named.

When Chop-Feed is sold or offered for sale without a registration number, and without a special guarantee from the manufacturer or agent, it must contain not less than 16 per cent of proteids, and not less than 2 per cent of fat, and not more than 10 per cent of crude fibre.

It is however strongly recommended to manufacturers of Chop-Feeds, i.e., feeds made from mixed or unmixed grains, ground or unground, that they register such feeds, and sell them under a definite guarantee.

Bran.—In table II will be found the results of analysis of 148 samples purchased as Bran. The extreme and mean results of their examination are as follows:—

	Maximum	Minimum.	Mean.
Moisture	13.37	7.90	10.69
Fat	9.52	1.42	3.92
Proteids	17.56	11.81	14.67
Crude Fibre	13.20	3.96	9.26
Ash	7.16	3.16	5.53
Carbohydrates	64.25	50.06	56.01

The analysis of 27 samples of Bran (reported in Bulletin 156) in June, 1908, gave very similar results.

8521—1½

The mean findings for protein, fat and fibre are as below :—

MEAN RESULTS FOR BRAN.

	Protein.	Fat.	Fibre.
27 samples (Bull. 156).....	14.74	3.48	8.69
148 " (Bull. 191).....	14.67	3.92	9.26

The following limits for Bran are recommended :—

When Bran is offered for sale without a registration number, and without a special guarantee from the manufacturer or agent, it must contain not less than 14 per cent of proteids, and not less than 3 per cent of fat, and not more than 10 per cent of crude fibre.

SHORTS OR MIDLINGS.

It has been found impracticable to distinguish between these terms; and for purposes of trade they appear to be synonymous, at least so far as Stock Feed is concerned. In table III will be found the results of analysis of 258 samples purchased as Shorts or Middlings; chiefly under the former name, which is that more commonly used, so far as I can learn. The findings may be thus summarized :—

	Maximum.	Minimum.	Mean.
Moisture	13.56	6.45	10.54
Fat.....	6.88	0.95	4.04
Proteids.....	18.93	10.00	15.25
Crude Fibre	12.15	0.22	5.63
Ash	5.74	0.88	3.63
Carbohydrates.....	74.18	51.04	60.55

Bulletin 156 contains the results of analysis of 36 samples purchased as Shorts or Middlings. The mean values are as follows :—

SHORTS OR MIDLINGS.

	Proteids.	Fat.	Fibre.
36 samples (Bull. 156)	16.37	4.00	7.75
258 " (Bull. 191)	15.25	4.04	5.63

The following limits for Shorts or Middlings as Stock Feed are recommended :—

When Shorts or Middlings is offered for sale without a registration number, and without a special guarantee from the manufacturer or agent, it must contain not less than 15 per cent protein, nor less than 4 per cent of fat, nor more than 8 per cent of crude fibre.

Four samples, which do not fall into either class of Feed Stuff herein considered, were collected in mistake, and are not further referred to in this report.

For the guidance of those interested the Commercial Feeding Stuffs Act is printed as an appendix to the present report.

I beg to recommend the publication of this report as Bulletin 191.

I have the honour to be, sir,

Your obedient servant,

A. MCGILL,

Chief Analyst.

8-9 EDWARD VII.

CHAP. 15.

An Act respecting Commercial Feeding Stuffs.

[Assented to 19th May, 1909.]

HIS Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. This Act may be cited as *The Commercial Feeding Stuffs Act, 1909.*

2. In this Act, unless the context otherwise requires,—

(a) "Minister" means the Minister of Inland Revenue;

Definitions.

"Minister."

(b) "commercial feeding stuff," "feeding stuff" and "feed" mean any article offered for sale for the feeding of domestic animals, and feeds claimed to possess medicinal as well as nutritive properties, excepting only hay and straw, roots, the whole seeds or the mixed or unmixd meals made directly from the entire grains of wheat, rye, barley, oats, Indian corn, buckwheat or flax seed; wet brewers' grains; the bran or middlings from either wheat, rye, oats, peas or buckwheat sold separately and not mixed with other substances;

"Commercial feeding stuff."

(c) "registration number" means the specific number given by the Minister, under this Act, to each brand of commercial feeding stuff;

"Registration number."

(d) "agent" means any person whose name has been filed with the Minister as provided by section 4 of this Act;

"Agent."

(e) "guaranteed analysis" means the valuation of a commercial feeding stuff by the manufacturer or agent, in terms of its minimum content of protein and fat, and its maximum content of fibre.

"Guaranteed analysis."

3. Commercial feeding stuffs shall be considered as of distinct brands when differing either in guaranteed composition, trade mark, name, or in any other characteristic method of marking.

Distinct brands.

Name of foreign manufacturer's agent or representative in Canada to be filed with Minister.

4. Where the manufacturer of any commercial feeding stuff has his factory or chief place of business elsewhere than in Canada, he shall file with the Minister the name of a person resident in Canada and acceptable to the Minister, or a corporation having its head office in Canada, as the agent or representative of such manufacturer for all the purposes of this Act; and any notice to, or communication or dealing with, such agent or representative by the Minister shall be effectual for all the purposes of this Act.

Default of filing.

2. In default of such filing, the Minister may take any proceeding or action under this Act *ex parte*, and without any notice to, or communication with such person or corporation.

Registration number.

5. Every brand of commercial feeding stuff offered for sale in Canada shall bear a registration number, which shall be permanently assigned to the particular brand of feeding stuff for which it is issued. The number shall be granted by the Minister on the application of the manufacturer of such brand of feeding stuff, or his agent, and on payment of a fee of two dollars.

Fee.

Application for registration number.

6. Every application for a registration number shall be accompanied by a statement giving the following particulars:—

- (a) Name of brand for which the registration number is asked, and trade mark, if any;
- (b) Name and address of manufacturer;
- (c) Name and address of the person applying for registration;
- (d) Guaranteed analysis;
- (e) The material of which the food is composed. This is required to be filed in the department, for the information of the Minister, not for publication.

Registration number, how affixed.

7. The registration number must be affixed by the manufacturer, or agent, in a plain and legible manner to every package of commercial feeding stuff sold or offered for sale, and shall constitute an identification of the brand. In addition to the registration number there must be legibly printed, on every package of feeding stuff sold, the statement set out in schedule A to this Act. This condition shall be held to be fulfilled if a printed tag bearing the registration number, and the statement required, is securely attached to the package.

Statement required.

Notice of change of composition and application for new number.

8. If a manufacturer elects to change the composition of any commercial feeding stuff for which a registration number has been granted, he shall notify the Minister to that effect, and shall apply for a new registration number to designate the new or altered feeding stuff; and the former registration number shall be cancelled, and shall not be reissued.

9. No manufacturer of commercial feeding stuff, and no agent of any such manufacturer, shall sell or offer for sale commercial feeding stuff, as defined by section 2 of this Act, unless he has a license under this Act authorizing the sale thereof. Annual license to sell.

2. Upon application of any such manufacturer or his agent, and upon payment of a fee of five dollars therefor, the Minister may grant a license authorizing the sale of such brands of commercial feeding stuff as are named in the license. Fee.

3. Such license shall be in such form as the Minister prescribes, and shall confer authority to sell during the calendar year in which the license is issued. Period of validity.

4. The Minister may renew any such license from year to year. Renewal.

10. Any purchaser of a registered commercial feeding stuff may obtain from the Minister an analysis of the feed as delivered to him, by making application for such analysis, accompanied by a sample of the feed of at least one pound weight, and taken in accordance with the directions given in schedule B to this Act; and on payment of a fee of one dollar. Purchaser registers feeding stuff may obtain analysis. Fee.

11. The officers of Inland Revenue, the officers of Customs, the inspectors and deputy inspectors of weights and measures, and the inspectors of food, drugs and agricultural fertilizers acting under *The Adulteration Act* shall, when required so to do by any regulation made in that behalf by the Governor in Council or the Minister, act as inspectors of commercial feeding stuffs, and shall procure and submit for analysis samples of feeding stuffs offered for sale in Canada. Certain officers to act as inspectors. R.S., c. 133.

12. Every inspector of commercial feeding stuffs shall, whenever instructed by the Minister so to do, obtain for analysis a sample of every feeding stuff offered for sale in the district for which such inspector is appointed. Inspectors to procure samples for analysis.

2. Every sample so obtained shall be transmitted to the Minister for submission to the chief analyst for analysis; and the result of all such analyses shall be published annually by the Minister in such manner as he sees fit, together with such other information pertaining to commercial feeding stuffs as he deems it desirable should be published. Analysis and publication of results.

13. If any feeding stuff is imported for the personal use of the importer, and not for sale, this Act shall not apply thereto, but such importer may secure an analysis of the feed as delivered to him, on application to the Minister and on payment of a fee of five dollars. The sample submitted must be taken in accordance with the requirements of section 10 of this Act. Feeding stuff imported for personal use. Analysis.

14. This Act shall not apply to feeding stuffs which are manufactured to the order of the purchaser and are not intended for sale. Feeding stuff made to order, and not for sale.

Analysis.

tended for sale, unless such feeding stuffs be actually sold by such purchaser; but such purchaser may secure an analysis of the feed as delivered to him, under the conditions stated in section 10 of this Act and on payment of a fee of five dollars.

Penalties for non-compliance with Act.

15. Every manufacturer or agent, or purchaser in cases provided for in the next preceding section, who sells or offers or exposes for sale any commercial feeding stuff in respect of which the provisions of this Act have not been complied with, or who sells or offers or exposes for sale any feeding stuff which does not contain the percentage of constituents mentioned in the manufacturer's statement or certificate accompanying such feeding stuff, shall be liable in each case to a penalty not exceeding fifty dollars for the first offence, and for each subsequent offence to a penalty not exceeding one hundred dollars and, in default of payment of such penalty, to imprisonment for thirty days; provided that a deficiency of one per cent of the protein, or fat, or an excess of two per cent of fibre claimed to be contained in the feeding stuff shall not be considered as evidence of fraudulent intent, if the total value of the feeding stuff in nutritive materials is substantially equivalent to the guaranteed statement made by the manufacturer or agent.

Proviso as to evidence of fraudulent intent.**Forgery of certificate, registration number, etc. Penalty.**

16. Every person who forges, or utters or uses knowing it to be forged, any manufacturer's certificate, registration number, or certificate of analysis required under this Act, is guilty of an indictable offence, and is liable to imprisonment for a term not exceeding two years, with or without hard labour.

Unlawful use of certificate, tag or number.**Penalty.**

17. Every person who wilfully applies to any commercial feeding stuff a certificate, or tag, or registration number given in relation to any other package or lot of feeding stuff, and every person who sells an unregistered feeding stuff, and every person who lowers the nutritive value of a feeding stuff by mixing any other substances therewith, after the said feeding stuff has been placed on the market by the manufacturer or agent, shall be liable, on summary conviction, to a penalty not exceeding five hundred dollars and, in default of payment, to imprisonment for a term not exceeding twelve months.

False certificate.**Penalty.**

18. Every person who gives a false certificate in writing with respect to a commercial feeding stuff sold by him as a principal or agent shall be liable on summary conviction to a penalty not exceeding five hundred dollars, and in default of payment to imprisonment for a term not exceeding twelve months.

Application of fees and penalties.

19. All fees paid and penalties recovered under this Act shall form part of the Consolidated Revenue Fund of Canada.

20. This Act shall come into force on the first day of January, Commence-
ment of Act.
one thousand nine hundred and ten.

SCHEDULE A.

STATEMENT TO BE ATTACHED TO PACKAGE.

1. (*Name of brand.*)
2. (*Registration number.*)
3. (*Name and address of manufacturer.*)
4. (*Analysis as guaranteed by the manufacturer, which shall show the percentage content of protein, fat and fibre.*)

5. Notice: Any purchaser may have an analysis made by the Department of Inland Revenue, on payment of one dollar. Samples must be taken in conformity with the regulations. For regulations address the Deputy Minister of Inland Revenue, Ottawa.

SCHEDULE B.

INSTRUCTIONS FOR TAKING SAMPLES OF FEEDING STUFFS TO BE SUBMITTED FOR ANALYSIS IN ACCORDANCE WITH SECTION 10.

Samples of feeding stuffs submitted by a purchaser for analysis must be inclosed in glass jars or bottles, and properly sealed. The samples must be taken in the presence of the vendor or of his representative.

Process of Sampling.

In lots of five tons, or less, portions shall be drawn from each separate package, and from at least ten packages; or if less than ten packages are present, all shall be sampled. In lots of over five tons, at least ten per cent of the packages shall be sampled. The portions so taken shall be thoroughly mixed in the presence of the parties interested, and from this mixture the sample sent to the Minister is to be taken, and must bear the signature of vendor and purchaser; and at the same time a duplicate sample is to be left with the party whose goods are inspected, subject to the call of the manufacturer or agent.
